20. FOURMAUX-CORIA

« It's OK, we had three good stages but the pace is not there at the moment. We'll continue this afternoon, there is still much to go. »

21. ROSSEL-DUNAND

« Not so bad, the rally is still long. Let's see this afternoon. »

22. LEFEBVRE-MALFOY

« We try our best but we lack performance in comparison to the new Skoda. We are third at the moment and try to stay close but it's not easy. We try to drive safely but it's not always easy. »

23. SOLBERG-EDMONDSON

« The morning was very good. I almost won the last stage but I made a few mistakes so it was not perfect. Otherwise it's okay, tires are good. »

25. MUNSTER-LOUKA

« We are still learning this car, yesterday wasn't that good and so different to what we are used to. We changed some setups and it's a bit better. It's up to us to get used to this car since we don't want to transform it. That today's mission. »

28. INGRAM-DREW

« We go stage by stage, at the moment it's OK. »

29. JOHNSTON-KIHURANI

« Not an easy morning, we struggled a bit with the balance of the car with the crossed tires this morning. The feeling was much better on the second stage but for the third stage we need to work on the damping. Three stages on the same tires is a bit too much so the balance got worse and worse throughout the last stage and I made some small mistakes but in the end we make it through. I've dealing with stomach issues in the last few days so I'm feeling quite tired, quite weak but we are doing the best job we can. »

31. MCERLEAN-ROWAN

« It's my first Monte and last night was quite tricky with the weather conditions but we survived. We need to check some setups and see what we can do this afternoon. »

32. CREIGHTON-REGAN

« We didn't have a great start to the rally, last night was not so easy, I did a couple of mistakes. Today started much better but unfortunately I spun in the second stage but then the third one was much cleaner. We are finding our pace so all good so far. »

34. LÓPEZ-ROZADA

« It was quite difficult because we put four supersoft tires on this morning. It's quite dry so let's try again this afternoon. »

35. CACHÓN-LÓPEZ

« Very good morning, three stages and we have a good feeling with the car. It's completely dry even if there is damp in some corners, but no ice. A good day so far. »

36. MIELE-BELTRAME

« The stage was difficult because the level is so high but I did my best and François is uncatchable. For me it's okay like this. We need to bring the car home for the championship. »

46. NIBOLI-BRUNETTI

« We tried our best, there was not much ice to expect this morning. I had two moments but thankfully we could chill directly after that. Onto the next loop! »

47. MARCHINO-OMETTO

« All good. It was marvellous, the fans are amazing and the stages are incredible. We have some troubles with the car but we are slowly fixing them. The Rallye Monte-Carlo is the number 1 rally in the world! »

48. ARENGI-BOSI

« It's been a difficult day, we started this morning with a puncture after just a couple of kilometre so we lost four minutes there and we are now behind. The two other stages were okay, we drove fine but we are way behind now. »

49. MERLI-ZORTEA

« All good, this is our first Monte experience so it's quite difficult. We were a bit slow in the first stage this morning but we'll see what comes next. »

51. HIRSCHI-VOLLUZ

« Tough, so much pollution in there. The first two stages were quite clean but the last on was so dirty from Entrevaux. Many rocks. We start from so behind so it's part of the game but we will use this first loop in the second one still we know what to expect. »

53. GINO-MICHI

« It's so dry, unbelievable, even the soft tires seem to not be enough. Sometime you need harder tires which are impossible to get. »

54. BAFFOUN-QUARTINI

« We had a great first stage, the second was a bit more difficult because the tires were too cold at the start and we even spun. So we lost some pace and then we had great fun in the third stage. We love to see so many people, it's sunny and it's so good to be here. »

55. DESANGLES-THÉRON

58. HAUT-LABOURDETTE-TARDITO

« It was not so bad. We suffered a bit in the Col de la Couillole since we were too cautious. We had a better feeling afterward and our time was not so bad in the third stage. We did what we had to without taking to many risks, like we should always do. Let's do it again this afternoon. »

59. RIBERI-HAUT-LABORDETTE

« It was okay. This was our first pass in the stages in comparison to our opponents, so not so easy. I was afraid to get a puncture in the apex so I was cautious but I can push a bit more. We'll do better in the second loop. »

60. TANCI-MALET

« We just finished the first loop and it's so much better than yesterday. We had a chat with the car and we are now slowly getting along. We have such a better feeling now, our times are good and we are happy. The rally is amazing. »
