

## e-Rallye Monte-Carlo (october 12-16, 2016)

### Time for Sport and mythical Turini !

In the course of a Friday filled with rain (light showers or torrential), with a few glimpses of sun, there were three Regularity Zones (ZR) from Cévennes to the Alpilles and then Var.

The final route to Monaco, at night, was made even more difficult by this terrible weather, so that a few cars and crews had to retire.

The hardest part of e-Rallye Monte-Carlo was still to come...

Under a summer-like sun, the caravan of e-Rallye Monte-Carlo eventually reached the Esplanade des Pêcheurs for a well-deserved afternoon of rest and recharge, before starting Leg 3 tonight at 8:30.

Left: the black Tesla S of crew N.31 (Didier Melga/Anne-Valérie Bonnel), the winners of ZR3 (Régusse-Draguignan).

Jean-Pierre Ballet ( Kia Soul ) :  
"We tried to be very careful on these treacherous roads, because of the heavy rain. I felt like I was racing in the Monte-Carlo of the old times, when it was a real adventure. This is the exact spirit that Automobile Club de Monaco wanted, for this e-Rallye, and we really had fun. Our goal now is to stay focused along Leg 3, in order to finish on a high note, at the top of the rankings, on these roads that I know by heart. I have raced on them in the Junior category, then in WRC, in the Historic rally and again during the previous editions of "Rallye Monte-Carlo des Energies Nouvelles" and ZENN (Zero Emission-No Noise). I also ride these roads on my bike, so I really hope that Leg 3 will be good to us, since I really know these roads better than some of my rivals".

At the end of a very tough Leg 2, due to the weather conditions, experience paid off for Jean-Pierre Ballet and co-driver Serge Lombard. They reached Monaco at the top of the provisional classification.

## e-Rallye Monte-Carlo (october 12-16, 2016)

Very constant since the start in Fontainebleau, JP Ballet/S. Lombard are leading e-Rallye Monte-Carlo

Vérini/Biche, the 1975 European Rally Champion and his famous co-driver, had to retire prematurely on the road to Monaco.

Caught in action, the VW E-Golf of Lansiaux/Buhot is hoping to climb on the final podium on Sunday.

A very good start for Christophe Ponset and Serge Pastor, 2nd at the start of Leg 3, in their Zoé

## e-Rallye Monte-Carlo (October 12-16, 2016)

**Triply** : the name of a crucial partner for all navigators and adventurers of this e-Rallye Monte-Carlo.

**ACM**, one of the first customers of Triply, supplied all crews with this electronic personalized roadbook. It allows them to follow the route of their car, as well as the timing, on tracks, roads, motorways, and especially along the Regularity Zones. With over ten years of experience, Triply can count on a team of ten engineers, in Belgium, to develop its products and constantly innovate. **This system also equips the crews entered in Rallye Monte-Carlo Historique.**

Another quality label for Triply.

The Triply Electronic Roadbook in situation, in the cockpit of Tesla N.1.

Tonight at 8:30 pm, in front of the headquarters of Automobile Club de Monaco, the remaining crews will start the final Leg (Monaco-Monaco) of e-Rallye Monte-Carlo.

There will be three Regularity Zones, run at night between the following villages:

- Monti - Lucéram
- Lucéram - Moulinet
- Moulinet - Sospel

These prestigious names remind us of the legend of Rallye Monte-Carlo.

So the crews could not wait to start this last Leg, in order to bring their fight all the way up to the mythical Col de Turini.

And then back to Monaco harbour, for the final podium on Sunday morning. The game is not over yet...
