## 2<sup>e</sup> e Rallye Monte-Carlo (25 – 29 october, 2017)

### A lot more than a simple Rally !

**32 electric vehicles and 6 Hydrogen (Fuel Cell) cars will start their long journey on october 25 in Fontainebleau with the same goal : to reach Monaco !**

**For this second edition of the eRallye Monte-Carlo, the Automobile Club de Monaco (A.C.M) wishes to offer the 38 crews an even more innovative and unforgettable adventure.**

The Automobile Club de Monaco (ACM) is faithful to its long-term commitment of promoting renewable energies and sustainable development. Christian Tornatore, the ACM General Commissioner, reminds us that « in this area, ACM has definitely opened the way by organizing an Electric Rally around Monaco in 1995. With this new e-Rally Monte-Carlo, which is the road racing equivalent to the e-Prix for single-seaters, the idea is to start

from much further away, just as the authentic pioneers of Rally Monte-Carlo did in 1911. For this modern times version of a clean rally, with zero CO2 emission, we are all very pleased, at ACM, that the entry list is full, with new generation vehicles representing more than nine car manufacturers. In addition to electric vehicles entered by market leaders such as Renault Zoé, VW e-Golf, Tesla S, Nissan Leaf, BMW i3, Hyundai and Toyota.

From the beginnings, several brand were used for this particular event :

- Rallye Monte-Carlo des Véhicules Electriques (1995, 1996, 1997, 1998 et 1999) ;
- Rallye Monte-Carlo Fuel Cell & Hybrids (2005, 2006) ;
- Rallye Monte-Carlo des Véhicules à Energie Alternative (2007, 2008, 2009, 2010 et 2011)
- Rallye Monte-Carlo des Energies Nouvelles / Rallye Monte-Carlo ZENN (2012, 2013, 2014, 2015)
- eRallye Monte-Carlo (2016, 2017).

100% ELECTRIQUE

100% HYDROGENE

WWW.ACM.MC

# LE QUOTIDIEN DU

A real competition open to non-polluting and CO2 free vehicles powered by electricity or hydrogen, street legal, from two seated minimum to five seated maximum.

The eRallye Monte-Carlo is the perfect place for the manufacturers for improving their cars and developing the future. « The second edition of the eRallye Monte-Carlo is even more clean and totally CO2 free. We are proud to involve 38 crews included some of the best crews of the Championnat Electrique et Nouvelle Energie of the FIA 2017 », Christian Tornatore said. « New generation of electric vehicles from the market leaders as Renault Zoé, Nissan Leaf, Kia Soul, Tesla S, VW e-Golf or Bmw I3. We also have 3 kind of Fuel Cell cars, powered by hydrogen : Toyota Mirai, la Hyundai IX35 et la Renault Kangoo repowered by Symbio Fcell... »

## Schedule 2017

**LEG 1 : Target time : 26 hours**  
**Refueling-free et route-free**

**FONTAINEBLEAU Wednesday, october 25 :**  
Adm. and technical Controls from 8 am to 12.30 pm
